

# COVID-19 SURVEY PART II: DRAFT EMAIL FOR THE CFA SOCIETY® COMMUNITY TO SHARE WITH LOCAL MEMBERS

**Subject Line:** Contribute to a CFA Institute research report

**Preheader:** Take a short survey to help assess the impact of COVID-19 on capital markets

In April 2020, CFA Institute members were asked to share their perspectives on the coronavirus pandemic's potential impact on capital markets and the investment management industry. We published our findings in the report, [Is the Coronavirus Rocking the Foundations of Capital Markets?](https://www.cfainstitute.org/en/research/survey-reports/is-the-coronavirus-rocking-the-foundations-of-capital-markets) (<https://www.cfainstitute.org/en/research/survey-reports/is-the-coronavirus-rocking-the-foundations-of-capital-markets>)

Nearly one year later, CFA Institute wants to hear your insights again to help update the research with a new study that will analyze how the crisis has evolved.

We ask that you support this initiative by taking the survey that was sent to you on 8 March 2021.

The survey closes on 22 March 2021.

Thanks in advance for your participation!
